SUBJECT INDEX—ALLERGY ABSTRACTS

A

Acetylcholine, effect of, on coronary artery, *62*
ACTH, effect of, on anaphylactoid reaction to egg albumin in the rat, *71*
upon cardiovascular lesions in anaphylactic hypersensitivity, *57*
electroencephalographic and neuropsychiatric changes during treatment with, *74*
treatment of asthma with, *65*
use in allergic diseases of, *26*
Adrenal cortical steroids, relation of, to antibody release, *93*
Adrenalectomy, effect on eosinophil response in rats of, *12*
Adrenalin, fluorescent development in paper chromatograms of, *63*
inhibition of cholinesterase by, *13*
Adrenals, role in anaphylactic shock in guinea pigs, *87*
Adrenergic drugs, evaluation of effectiveness of, *1*
local blockage by dibenamine and SY-28 of, *45*
Adrenocortical extract, failure to influence immunity, *15*
function, in allergies, *59*
Adrenocorticotropic hormone, effect on circulating antibody levels, *87*
on Shwartzman phenomenon of, *61*
Aerosols, influence of airflow and medication concentration upon, *64*
Agglutination, method for differentiating "physiologic" and immune antibodies causing, *32*
Agranulocytosis, Pyribenzamine as a cause of, *32*, *78*
Airsickness, prevention by Dramamine vs. Benadryl and hyoscine, *63*
Alginate, antigen depot, *64*
Allergic dermatitis, associated with collagen disease in a fatal case, *75*
rhinitis, treatment of, with hesperidin chalcone sodium, *39*
Allergy, heparin treatment in, *61*
nuchal myalgia and associated headache caused by, *39*
role of, in epidemiology of common cold, *85*
Alternaria, potency of acetone-precipitated extracts of, *50*
Aminophylline, blood levels as a guide to dosage of, *77*
diminished cerebral blood flow in human beings following intravenous administration of, *46*
effect of, on prothrombin time, *93*
effectiveness in combating histamine and methacholine by various routes, *26*
Ammoniated mercury sensitivity, treated successfully with BAL, *68*
Anaphylactic shock, evidence of fibrinolysin release in, *73*
Anaphylaxis, hepatic venous spasm in dogs, rats, and guinea pigs during, *72*
vascular reactions in mouse ears caused by, *71*
Anemia, antihistaminics as a cause of, *78*
Angioedema, amebiasis associated with, *83*
Ant bites, severe reaction from, *9*
Antabuse, fixed eruptions from, *68*
Antibody, conjugation with fluorescein and use as histochemical stain, *79*
formation, effect of splenectomy on, in the rat, *88*
in chickens, splenectomy as a factor in, *64*
lymph node and lymphocytes as a factor in, *58*
production, effect of malnutrition on, *94*
using an alginate depot, *64*
Antigen-antibody systems, complexity of, demonstrated by serum-agar technic, *96*
azoprotein dye linkage as a tracer in study of distribution of, *14*
properties responsible for renal localization of antikidney serum, *95*
Antihistamine therapy in experimental shock, *92*
Antihistamines, use in "epinephrine fastness," *82*
Antithistaminic activity of epinephrine, *13*
agents, effect on various whealing phenomena of, *11*
metabolism studies by analytical methods, *91*
effects of 'Perazil,' *44*
Antihistaminics, activity measured by iontophoretic technique, *60*
curare reactions inhibited by, *13*
duration of activity of, *13*
effect of, on localization of trypan blue in xylene-treated areas of skin, *12*
on patch test reactions, *84*
on striated muscle of, *61*
on tuberculin cutaneous reaction of, *47*
effectiveness in treatment of experimentally induced bronchial asthma, *9*
in asthma, *18*
therapy in the common cold, *60*
thrombophlebitis treated with, *16*
use in radiation therapy of, *21*
value in radiation therapy of, *63*
wheal-inhibiting effect, *84*
Anti-rat-liver serum, effect on rats, *88*
Antistine, sensitization to, *53*
Arterenol, ionotropic action of, *90*
Arthus phenomenon passively induced in guinea pigs, *56*
Ascaris, toxic and allergic reactions to various tissues of, *57*
Ascorbic acid, treatment of colds with, *69*

Asthma, antihistaminics in experimentally induced type of, *9*
caused by Kejaat wood, *66*
death following intravenous procaine hydrochloride and Sodium Amytal in patient with, *19*
due to wood dust, *18, 66*
effect of Dihydroergocornine on the pulmonary response to histamine and methacholine in, *17*
in childhood, *34*
incidence in general practice of, *67*
induction by inhalation of allergen of, *34*
mediastinal and subcutaneous emphysema in, *3*
other factors besides allergy as a cause of, *35*
respiratory exercises in, *19*
treated with antihistaminic drugs intravenously, rectally, and by aerosol, *18*
use of ACTH in, *65*
value of specific desensitization in, *19*
Atopic dermatitis, inhalant allergens as a cause of, *4*
fungus studies in, *38*
Aureomycin, allergic skin reactions following use of, *68*
angioneurotic edema due to, *83*
Azodyes, feeding of paraphenylenediamine-hypersensitive subjects with, *21*

B

B_{12}, sensitivities to various types of, *69*
Bacitracin in the treatment of asthma, *88*
Bacterial allergy, psoriasis as a possible expression of, *86*
testing and treatment with bacterial filtrates, *54*
flora of nose and nasopharynx in adults, *85*
Bakers, incidence of allergic symptoms in, *51*
BCG test, tuberculosis diagnosis by, *16*
tuberculin, as testing material, *31*
vaccination, response of skin to, *30*
Bee sting, histology of lesion produced by, *70*
Benadryl, effect on Herxheimer reactions after use of penicillin, *47*
poisoning by, *29*
Benzoin, contact dermatitis from compound tincture of, *37*
Bronchiectasis, in children, *17*
pulmonary resection in, *3*
segmental pathology of, *51*
Bronchodilators, method for evaluating efficacy of, *2*
Burns, effects of antihistaminics on, *91*

C

Cane sugar as an allergen, *86*
Cardiovascular lesions, effect of ACTH on, *57*
Cigarette paper, contact dermatitis due to, *37*
Ciliary activity in the respiratory tract of animals, *7*
Cinnamon, contact dermatitis due to, *84*
Collagen, allergic dermatitis associated with, *75*
antigenicity of, *42*
disease, hypersensitivity as a cause of, *45*
Common cold, active immunization against secondary bacterial infections of, *38, 39*
nature of causative factor in, *8*
research studies on, *8*
role of allergy in epidemiology of, *85*
treatment with antihistaminics, *63*
virus vaccine immunization against, *31*
Complement, cytolysis of white blood cells by tuberculous plasma, tuberculin and, *40*
Connective tissue disease, serum electrophoresis in, *52*
Constitutional reactions, blood studies in, *51*
Contact dermatitis, Antistine as a cause of, *53*
compound tincture of benzoin as a cause of, *37*
electrode jelly as a cause of, *21*
gum tragacanth as a cause of, *21*
reactions, nature of cellular exudate from, *5*
Cor pulmonale, chronic, neurologic effects of oxygen on, *90*
Coronary artery, effect of epinephrine, acetylcholine, and histamine on, *62*
Cortisone, effect of, on anaphylactoid reactions to egg albumin in the rat, *71*
Curare, liberation of heparin and histamine by, *46*
side effects, inhibition by antihistaminics, *13*
Cutaneous tuberculin sensitivity, passive transfer of, *54*

D

DDT, exfoliative dermatitis caused by, *6*
Dermatitis, primary irritants in shoes as a cause of, *37*
procaine as a cause of, *6*
ragweed, oral therapy in, *6*
Dermatoses, McClure-Aldrich test in, *52*
Desoxycorticosterone acetate, effect on anaphylactoid reaction in the rat, *71*
Dibenamine and related compounds, pharmacologic activity of, *89*
Disseminated lupus erythematosus, cortisone and ACTH in the treatment of, *73*
Dogs, allergic-type response elicited by synthetic detergent in, *25*
Dramamine, prevention of airsickness by, *63*

E

Eczema scales, cutaneous reactions to, *4*
Eczematoid dermatitis, food as a factor in, *22*
Electrophoresis of serum protein in diseases of connective tissue, *52*
Emphysema, mediastinal and subcutaneous, in bronchial asthma, *3*
Encephalomyelitis, isoallergic, in guinea pigs, *73*
Eosinopenia due to hyperglycemia, *60*
Eosinophilic granuloma, simulating neoplasm in the jejunum, *76*
Eosinophils, anoxemia as a cause of reduction of, *61*

Eosinophils—Cont'd
effects of adrenal and adrenocorticotropic hormones in mice on, *28*
of stress in mice on, *28*
Ephedrine, efficacy in relief of bronchospasm, *1*
Epidermophytosis, relationship of penicillin reactions to, *52*
Epilepsy, side effects of treatment with Paradione and Tridione, *67*
Epinephrine and nor-epinephrine, pulmonary edema from, *2*
anesthetic effect of intracisternal injection of, *89*
antihistaminic effect of, *13*
blood pressure effect of, reversal by C-7337, *46*
effect on coronary artery of, *62*
efficacy in relief of bronchospasm of, *1*
fastness, antihistamines as a therapeutic measure in, *82*
ionotropic action of, *90*
local sweating induced by intracutaneous injection of, *10*
mechanism of, acute lethal effect in rats of, *59*
physiologic effects produced by large doses of, *94*
stress in the dog, resistance to, *91*
Ergotamine, contraindications to use of, in coronary insufficiency, *92*
Erythema nodosum, etiology of, *16*
Exfoliative dermatitis, penicillin as a cause of, *52*
streptomycin as a cause of, *52*
Experimental vascular lesions, inhibition of, by nitrogen mustard *45*
Extravascular thiocyanate space in experimental serum sickness, *43*

F

Favism, *25*
Fibrocystic disease of pancreas, pulmonary lesions in, *29*, *31*
Folic acid, hypersensitivity to, *40*
Food allergy, provocative diets in the diagnosis of, *42*
Fungi, importance in respiratory allergy in Manitoba, Canada, *65*
Furacin, sensitivity to, *67*

G

Gamma globulin, relationship to infections of the respiratory tract, *23*
Globulin, antigenicity of, *42*

H

Heparin, anaphylactic reaction due to, *69*
liberation after tubocurarine injection, *46*
Hepatitis, phenobarbital as a cause of, *84*
Herpes simplex, serologic diagnosis of, *96*
Hesperidin chalcone sodium (vitamin P) treatment of allergic and vasomotor rhinitis with, *39*
Histaminase, blood content in pregnancy, *11*
Histamine and uveal infiltration, *23*
blood content, in anaphylactic shock in dog, *87*
in pregnancy, *11*
chemical configurations responsible for activity of, *92*
conjugation and urinary recovery following oral administration of, *27*
effect on coronary artery of, *62*
identification in the blood by chromatography, *43*
lack of oxytocic effect in pregnancy, *12*
liberation after tubocurarine injection, *46*
metabolism in pregnancy, *62*
relationship to blood coagulation mechanism, *25*
release of, from blood cells of sensitized rabbits, *25*
during hemolytic reactions, *62*
treatment of psychoses with, *48*
urinary excretion following oral and intravenous administration of, *76*
Horse serum, hypersensitivity in rabbits to, *58*
Human dander, allergen of, *4*
Hyaluronidase, bullae produced in pemphigus as a result of, *36*
failure of antihistaminic drugs to inhibit, *16*
inhibition of, by adrenal cortical activation, *89*
Hyperglycemia, eosinopenia, produced by, *60*
Hypersensitivity to horse serum in rabbits, *58*
to mercurial diuretics, *20*

I

Immunization against secondary bacterial infections of the common cold, *39*
Inflammation acute, effect of tripelennamine on, *77*
Insulin, desensitization to, *54*
generalized allergy to, *54*
mechanism of cutaneous reactions to, *55*
Intravenous procaine, death in an asthmatic following, *19*
treatment of urticaria with, *9*
Iododerma tuberosum, association with periarteritis nodosa, *76*
Isuprel, analogues, antihistamine activity of, *47*
efficacy in relief of bronchospasm, *1*
inotropic action of, *90*

L

Leucocytes, blockage of tuberculin cytolysis by, *30*
effect of adrenal cortex and adrenalin upon, in the rat, *47*
plasma factor responsible for tuberculin lysis of, *30*
Lipstick dermatitis, due to Sudan IV, *68*
Liver, allergic reaction to, *70*
Localization of in vivo antibodies by use of radioactivity, *48*
Loeffler's endocarditis fibroplastica, *82*
syndrome, association with polyarteritis nodosa, *82*
case report of, *35*

M

McClure-Aldrich test in dermatology, *52*
Mercupurin, urticaria caused by, *20*
Mercurial diuretics, urticaria caused by, *20*
Mercury amalgam, contact dermatitis due to, *20*
Metabolism of antihistaminic agents, studies of, by quantitative methods, *91*
Migraine, allergic factors in, *24*
  associated with ocular allergy, *24*
Mold, counts in Cardiff, England, *35*
  immunologic relationships of, *50*
  respiratory allergic diseases caused by, *49*
  survey of, in Sweden, *3*
Mucous membrane sensitivity to penicillin, *38*
Mumps virus vaccine, immunologic response of children to, *95*
Myocardial infarction, as a manifestation of serum sickness, *29*

N

Nasal allergy, perennial, *86*
  and paranasal structures, experimental studies of pain originating from, *53*
  turbinates, temperature of, *22*
Neostigmine, in the treatment of procaine reactions, *88*
Neosynephrine, efficacy in relief of bronchospasm, *1*
Nose and nasopharynx, bacteriology of, in adults, *85*
Nuchal myalgia, allergy as a cause of, *39*
Nupercaine, death from, *16*

O

Octin, evaluation in treatment of vasodilating headaches, *24*
Ocular allergy, associated with migraine, *24*
  due to foods, *24*
Orthoxine, efficacy in relief of bronchospasm, *1*
Oxygen, mental changes in anoxemic patients receiving high concentrations of, *81*

P

Para-aminosalicylic acid, allergic reaction to, *41*
Paraphenylenediamine-hypersensitive subjects, feeding of food azodyes to, *21*
Parasites, urticaria caused by, *20*
Patch testing, sensitization caused by, *6*
  tests vs. usage tests, *20*
Penicillin, anaphylactoid shock due to, *42*
  buccal mucosal test with, *38*
  in oil, pulmonary embolism caused by, *48*
  reaction involving the liver, after use of, *71*
'Perazil', antihistaminic effects of, *44*
Periarteritis nodosa, relation to drug allergy of, *77*
Phenergan, failure of, to protect against pulmonary edema, *90*
  vascular effects of, *29*
Phenobarbital, hepatitis and exfoliative dermatitis due to, *84*
Phenolphthalein, contact dermatitis due to, *7*
Pilocarpine, effect on epinephrine reversal, *46*
Pitressin, hypersensitivity to, *23*
Plasma volume, in experimental serum sickness, *43*
Pollen, allergic specificity of, *34*
  studies, *66*
Polyarteritis nodosa, acute, in childhood, *9*, *44*
  occurrence in a 9-month-old infant, *44*
Procaine, contact dematitis in dentists due to, *6*
  death from, *16*
  intravenous, reaction to, *55*
  use of, *12*
  pharmacologic actions of, *12*
  reactions to, treated with neostigmine, *88*
Prurigo, dermatographic, *84*
Pruritus of chicken pox, effect of Pyribenzamine in the treatment of, *80*
Psoriasis, bacterial allergy as a possible cause of, *86*
Psychosis, toxic, Trimeton as a cause of, *94*
Pulmonary edema from 1-epinephrine and 1-nor-epinephrine, *2*
  embolism, penicillin in oil and wax as a cause of, *48*
Purpura, Schoenlein's, food allergy as a cause of, *41*
  thrombopenic, iodine as a cause of, *48*
Pyribenzamine, absorption, distribution and excretion of, *58*
  effect on respiration of mouse brain homogenates, *92*
  on tuberculin reaction of, *41*
  effects of various modes of administration of, upon histamine wheals and epidermal sensitivity reactions, *67*
  in shock, *47*
  inhibition of hyaluronidase by, *28*
  nasal application by iontophoresis, *69*
  unusual reaction due to, *32*
  urticaria due to, *22*

Q

Quinidine, allergic responses to, *92*

R

Radiation therapy, use of antihistaminic drugs in, *21*
Ragweed dermatitis, *6*
  pollen, specific gravity of, *66*
Range oil fumes as a cause of chronic cough, *66*
Respiration of mouse brain homogenates, effects of Pyribenzamine on, *92*
Respiratory tract, effect of gamma globulin in infection of, *23*
Rh antibody, factors responsible for titer rise during pregnancy, *79*
Rheumatic fever, allergy in the pathogenesis of, *27*
  failure to demonstrate specific antibody-antigen reactions in, *79*
  high serum complement levels in, *8*
  simulation to, of cardiac lesions in rabbits, *76*
Rheumatoid arthritis, failure of sheep cell agglutination in diagnosis of, *14*

Rheumatoid arthritis—Cont'd
serum, effect on agglutination and hemolysis of sensitized sheep cells, *63*
Rhus toxicodendron dermatitis, prophylaxis of, *83*
Ricin, toxic effect as a stimulating factor for precipitin formation, *10*

S

Sarcoidosis, BCG vaccination in, *30*
Serum, anti-rat-liver, effect on rats, *88*
sickness, intravenous procaine in treatment of, *25*
Sesame seed and sesame oil, sensitivity to, *41*
Shock, anaphylactoid, due to penicillin, *42*
effect of Pyribenzamine in, *47*
Shwartzman phenomenon, pencillin reactions similar to, *9*
Sludged blood, role in allergy of, *61*
Smallpox vaccination, immediate reaction not an indication of immunity, *86*
Sodium salicylate, effect upon hypersensitivity reaction, *87*
Splenectomy, effect of, upon antibody formation in the rat, *88*
Spore dispersal in relation to plant disease and health, *18*
Status asthmaticus, acute parietal endocarditis associated with, *82*
cause of, *33*
treatment of, *33*
Streptomycin, cutaneous lesions due to, *36*
Sulfobromophthalein, anaphylactoid reaction following use of, in liver function test, *70*
Sulfonamide, fixed eruption due to, *36*
polyarteritis nodosa caused by, *9*
Sweating, intracutaneous administration of epinephrine as a cause of, *10*

T

Thephorin, reactions to the local use of, *5*
Thrombopenic purpura, due to iodine, *48*
Thrombophlebitis migrans, antihistamine therapy in treatment of, *16*
Thyroid and adrenal hormones, opposite actions in allergic hypersensitivity, *74*
Tick bite, allergic meningitis from, *55*
polyradiculitis from, *55*
Tobacco antigen, incidence of cutaneous reactions in children, *55*
mosaic virus, isolated from its antigen-antibody complex by papain, *80*
Tooth powder, buccal tests with penicillin incorporated in, *38*
Toxemia of pregnancy, Pyribenzamine in treatment of, *93*
Tragacanth, contact dermatitis caused by, *21*
Trichophytin, immediate and tuberculin-type reactions to, *5*
Trimeton, toxic psychosis due to overdosage with, *94*
reaction resembling schizophrenia from, *78*
Tripelennamine, absorption, distribution and excretion of, *58*
effect of, on acute inflammation, *77*
Tuberculin, a plasma factor responsible for lysis of leucocytes by, *30*
cytolysis blocked by leucocytes, *30*
of leucocytes by, *30*
of white blood cells by tuberculous plasma, complement and, *40*
lysis of white blood cells by a tuberculous plasma factor and, *40*
nonspecific reactions to, *80*
pseudoreactions in atopics to, *15*
sensitivity, BCG vaccination and, *30*
conference of, by use of tubercle bacillus wax and egg albumin, *72*
Turbinates, nasal, temperature of, *22*
"Tween," whealing response in dogs caused by, *25*

U

Undecylenic acid, dermatitis medicamentosa from, *53*
Urticaria, amebiasis associated with, *83*
Giardia lamblia as a cause of, *20*
photogenica, report of two cases, *21*
Pyribenzamine as a cause of, *22*
Uveal infiltration and histamine, *23*

V

Vaccinia, generalized, recovery following treatment with aureomycin, *15*
Vaponefrin efficacy in relief of bronchospasm, *1*
Virus vaccine, immunization against the common cold with, *31*
Visammin, bronchial asthma and cor pulmonale treated with, *51*
Vitamin C, effect upon resistance to infection, *96*
Volumetric and gravity slide tests for ragweed and oak pollens at Cloumbus, Ohio, *49*

W

White blood cell cytolysis by tuberculous plasma tuberculin and complement, *40*
tuberculin and tuberculous plasma causing lysis of, *40*
Wood dust as a cause of asthma, *18*
